Lost World of Genesis One, The: Ancient Cosmology and the Origin Debate, John H. Walton. Based on a rigorous study of the Hebrew word "bara" (create) and ancient Near Eastern literature, Walton argues that Genesis 1 was written to show the people in that ancient Near Eastern world that the cosmos was created as a functioning temple where God takes up his residence as his headquarters from which he runs the world.

The creation account is far more concerned with the cosmos being given its functions as God's temple than it is with modern people's questions of what can be learned from science regarding origins. So it sheds fresh light on origins while recognizing the real authority of God's Word. St. Paul Among the Philosophers, Edited by John D. Caputo and Linda Martin Alcoff. Papers presented at a philosophy conference at Syracuse University in 2005 with "New Perspectives on Paul" New Testament scholars Ed P. Sanders and Dale B. Martin, philosophers and historians looking at the writings of the Apostle Paul. Contemporary Marxist philosophers Alain Badiou and Slavoj Žižek have become fascinated with Paul's themes of freedom and the universality of truth and make applications to politics and today's world, all the while rejecting the Christ he preached as the source of freedom and truth. But the Bible scholars and the biblical historian Paula Fredriksen and Daniel Boyarin strongly criticize Badiou and Žižek for ignoring the historical Jewish context in which Paul wrote. Philosopher Richard Kearney also contributes along with the editors. Caputo's introduction is a summary of the issues raised. Includes roundtable discussion. No evangelical scholars are included but it allows evangelicals to find out what others are saying about Paul. Cooperative publishing/distribution with WLP. He explores the origins and explains what it does for us. Here is teaching that will enhance any reader's appreciation for the work of Christ that is pictured in the bread and wine. What Is the Trinity? R. C. Sproul. Crucial Questions Series. The Trinity is truly a mystery. This doctrine teaches that the God of Christianity is one in His essence but three in His persons--the Father, Son, and Holy Spirit. Though the word Trinity is not in the Bible, there is no doubt that the Scriptures teach this triune nature of God. Christians worship one God who manifests Himself in three distinct persons. He deals with objections and also outlines the chief errors on this doctrine that have affected the church. While this truth is difficult to understand, it is not contradictory. Rather, it is a beautiful expression of the biblical teaching on the nature of God. B6 size, 80 pp. ISBN 978-4-264-03857-3 (Sanmi Ittai to wa Nanika) (14840) ¥900+
